

Annex A

Main categories of NRMM eligible to use red diesel

Table 5.A: Table

NRMM using red diesel
Airport operations includes aircraft tugs, stairs, luggage conveyor belts, etc
Agricultural and horticultural includes tractors, combines, shredders, etc
Construction, incl. plant-and equipment hire – includes rough terrain forklifts, access platforms, welding equipment, air/gas compressors, wheeled loaders, industrial tractors (not for agricultural purposes), cranes, concrete pavers, surfacing equipment, concrete saws, crawler tractors, asphalt pavers, paving equipment, bore/drill rigs, skid-steer loaders, crushing/processing equipment, tracked loaders, graders, scrapers
Forestry includes wood chippers, stump grinders, etc
Ground works contractors – includes backhoe loaders, mini excavators, wheeled excavators, crawler excavators, rigid dump trucks, articulated dump trucks, bulldozers, etc
Haulage – auxiliary power plants, e.g. providing refrigeration, or driving a concrete mixing drum
Portable generators – providing onsite power for outdoor events, street market traders, funfairs, construction sites etc. Please split your response into portable generators 5–100kW, portable generators 100–1000kW and portable generators over 1000kW.
Logistics and freight – ports, rail terminals, other sites handling shipping containers; warehouses, distribution hubs
Machinery installers – e.g. installers of manufacturing plant or electrical turbines
Manufacturing –

when 'works trucks' cart materials around a site

Maritime & inland waterway vessel operators

Property managers and maintainers –

grass mowing and using elevating work platforms

Quarrying and mining

Rail industry –

motive power for freight and passenger trains

Waste handling and recycling
