

### References

The marine planning team have continuously been reviewing available evidence and keeping up to date with issues in the east marine plan areas. To prepare for the Issues with Supporting Evidence stage in plan making, the team conducted a horizon scanning exercise and identified three priority issues, challenges, and opportunities within marine planning policy areas. The evidence to support the issues, challenges and opportunities are listed below. If you have any additional or alternative evidence sources, please upload these to the relevant sector.

#### Aggregates
