

## Operations requiring Natural England's consent

### Wildlife and Countryside Act 1981 Section 28 (4)(b) (as amended)

The operations listed below may damage the features of interest of **Dallow Downs and Winsdon Hill SSSI**. Before any of these operations are undertaken you must consult Natural England, and may require our consent.

It is usually possible to carry out some of these operations in certain ways, or at specific times of year, or on certain parts of the SSSI, without damaging the features of interest. If you wish to carry out any of these activities please contact a Natural England Adviser who will give you advice and where appropriate issue you with a consent. Please help us by using the form sent to you with the notification documents to ask us for consent to carry out these operations.

In certain circumstances it will not be possible to consent these operations, because they would damage the features of interest. Where possible your Natural England Adviser will suggest alternative ways in which you may proceed, which would enable a consent to be issued. To proceed without Natural England's consent may constitute an offence. If consent is refused, or conditions attached to it, which are not acceptable to you, you will be provided with details of how you may appeal to the Secretary of State.
