

## Countryside and Rights of Way (CROW) Act 2000

### REVIEW OF STATUTORY DIRECTION

#### SUMMARY FOR PUBLIC CONSULTATION

Prepared by Natural England

#### 1. INFORMATION ABOUT THE PUBLIC CONSULTATION

**Access Authority:** Bradford, Calderdale and Lancashire  
**Relevant Authority:** Natural England  
**Local Access Forum:** Bradford LAF, Calderdale LAF, and Lancashire LAF

Natural England is about to review the following direction:

<b>Land Parcel Name:</b>	<b>Open Access or England Coast Path</b>	<b>Direction Ref.</b>	<b>Dates of restriction/exclusion on existing direction:</b>	<b>Reason for restricting/excluding access</b>
Stanbury Moor	Open access	2004110039	1 <sup>st</sup> August – 10 <sup>th</sup> December annually	CROW section 24 – Land management  Keep dogs on leads

This is in line with the relevant authority's statutory duties (see Annex 1).

Your views on the current direction are sought to assist Natural England in deciding whether the restriction is still necessary for the original purpose, and if so, whether the extent and nature are still appropriate for the original purpose.

The relevant authority may decide to revoke the direction or that no change to the extent and/ or nature except the end date is necessary. In which case a

Consultation Outcome Report will be published on the [Consultation Pages](#) of the Government's website<sup>1</sup>.

If the relevant authority decides to vary the extent or nature of the restriction a further round of public consultation may be necessary (see Annex 1) in which case a second Consultation Summary Report will be published.

## **2. SUMMARY OF EXISTING DIRECTION**

Natural England made this long-term direction on 23/10/2019.

The short summary below gives the background to the direction. This should be read in conjunction with the other documents available as part of this consultation. Further information is available from Katherine Sutton at [restriction.representations@naturalengland.org.uk](mailto:restriction.representations@naturalengland.org.uk)

An original application, for a dog exclusion, was received in 2004. Natural England felt that the evidence for a year round exclusion/restriction (particularly for disturbance in the winter period) was not conclusive and following detailed discussions the decision was to keep dogs on leads during the breeding period from 1st August to 10th December each year.

This restriction is in addition to the national 'dogs on lead' restriction from 1st March to 31st July (CROW Schedule 2). The restriction has been reviewed multiple times most recently in 2019 with no change.

## **3. SUBMITTING COMMENTS ON THE REVIEW**

If you wish to comment on the review of this direction then you must do so before 27<sup>th</sup> January 2025 directly to Katherine Sutton at [restriction.representations@naturalengland.org.uk](mailto:restriction.representations@naturalengland.org.uk)

A map accompanies this notice and is attached and can be seen on the [Consultation Pages](#) of the Government's website<sup>2</sup>.

## Using and sharing your consultation responses

In line with Natural England's [Personal Information Charter](#), any comments you make, and any information you send in support of them, will help us to determine the application and/ or determine if the restriction/ exclusion is still necessary in relation to the review or reassessment of a current direction.

We may wish to pass such comments or information to others in connection with our duties and powers under the open access legislation. This may mean for example passing information, including your name and contact details, to the Secretary of State or their appointees, the Planning Inspectorate or to the relevant access authority(s).

We will summarise all responses and place this summary on [the Government's consultation website](#). This summary will include a list of names of organisations that responded but not the names, addresses or other contact details of individual respondents.

There may also be circumstances in which we will be required to disclose your response to third parties, either as part of the statutory process for consideration of representations and objections about our decision, or in order to comply with our wider obligations under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004.

If you do not want your response - including your name, contact details and any other personal information – to be publicly available, please explain clearly why you regard the information you have provided as confidential. However, we cannot give an assurance that confidentiality can be maintained in all circumstances. An automatic confidentiality disclaimer generated by your IT system will not be regarded as binding on Natural England.

## Annex 1

In accordance with statutory guidance, the relevant authority has a duty to:

- review directions of a long-term character no later than their fifth anniversary; and
- revoke or vary directions where necessary.

Under CROW section 27(3) the relevant authority must review, at least every five years, any direction it has given that restricts access indefinitely; for part of every year; for part of each of six or more consecutive calendar years; or for a specified period of more than five years.

During the review the relevant authority must, having regard to the interest of the public in having access to the land, consider whether the restriction is still necessary for its original purpose, and if so, whether the extent and nature of the restriction is still appropriate for the original purpose.

Before reviewing a long-term direction the relevant authority must consult:

- the local access forum;
- the applicant or his successor in title, where reasonably practicable – for directions under section 24 or 25 made on application; or
- the relevant advisory body – for a direction made under section 26.

The authority must also publish a notice on a website (and send a copy to statutory consultees) that must explain that the authority proposes to review the direction in question; where documents relating to the review may be inspected and copies obtained; and that representations in writing with regard to the review may be made by any person to the authority by a date specified in the notice.

Once consultation is complete the relevant authority should have regard to any representations it receives before making a decision.

If following the consultation, the Relevant Authority decides to:

- leave the original direction unchanged, the relevant authority should record the date that the decision was made and should schedule a subsequent review where necessary.

If following the consultation, the Relevant Authority decides to:

- vary the extent or nature of a restriction, the relevant authority will issue a new direction under the same section and direction number that was used to give the original direction. If the new direction is long-term, it must be reviewed within five years of the date it is given;
- revoke a direction, we will record the date that the decision was made.

Before varying or revoking a direction the relevant authority must: consult the original applicant or his successor in title, where reasonably practicable – for directions given under section 24 or 25 on an application; or consult the relevant advisory body – for directions given under section 26. In either case, follow the consultation procedures set out in the Relevant Authority Guidance but only if it proposes to give a new direction that would restrict access indefinitely or for more than six months continuously.
