

**Countryside and Rights of Way (CROW) Act 2000:**

**PROPOSAL FOR A LONG TERM DIRECTION  
BY THE RELEVANT AUTHORITY**

**SUMMARY FOR PUBLIC CONSULTATION  
Prepared by Forestry Commission**

**1. INFORMATION ABOUT THE PUBLIC CONSULTATION**

<b>Case Reference Number:</b>	2022109785
<b>Name of site/land parcel:</b>	<b>Sturdy Sike – NY 618 919</b>
<b>Access Authority:</b>	<b>Northumberland County Council</b>
<b>Relevant Authority:</b>	Forestry Commission
<b>Local Access Forum:</b>	Northumberland National Park & Countryside Joint LAF

The Forestry Commission has received an application under section 25 (1b) of the Countryside and Rights of Way Act (the Act) for a direction to exclude the public from the site indicated on the attached map, in order to carry out timber harvesting operations.

Having considered the application, the Forestry Commission now proposes to give a direction on the site that would last for longer than 6 months continuously for 370 days between the 30/01/2023 and 29/01/2028. The Act requires us to consult publicly on all such proposals for 'long-term directions'.

This is a summary of our proposal, explaining the reasoning in support of our proposal. It is accompanied by a map of the site which can be seen on the Open Access website:

[https://www.gov.uk/government/publications?publication\\_filter\\_option=consultations](https://www.gov.uk/government/publications?publication_filter_option=consultations)

To access the consultation enter "Open Access" into the free text box titled "Contains" and then filter by "Natural England" in the Department drop down. Other documents relating to the proposed direction may be inspected and copies obtained by contacting the Forestry Commission at Buller's Hill, Kennford, Nr Exeter, EX6 7XR; e-mail: [cca@forestrycommission.gov.uk](mailto:cca@forestrycommission.gov.uk).

## **2. SUMMARY OF RELEVANT AUTHORITY PROPOSAL**

**i) Summary of proposed direction to restrict access**

Long Term Outline Direction

**ii) Why is a statutory restriction necessary?**

Public Safety Grounds

**iii) What is lowest level of restriction required?**

**Full Exclusion of Public access**

### **ADDITIONAL INFORMATION TO SUPPORT THE APPLICATION FOR OUTLINE DIRECTION OF LONG TERM CLOSURE**

The proposed felling coupe, to be known as Sturdy Sike, is projected to produce around 30,000m<sup>3</sup>/24,200t of timber to supply local and national markets. The site covers approximately 66.5 hectares (Gross).

The parcel will be sold standing on the open market in January 2023 and it is expected to be worked during the 2023/2024 financial year. Due to the reliance on timber merchants, precise timings of harvesting operations are not currently known.

The risk assessment carried out identifies that timber harvesting operations present a risk to public safety; it is therefore necessary to exclude the public from the site during operations.

The work will be carried out using normal forest harvesting techniques, i.e. harvester/forwarder, given estimated machine outputs of around 500 tonnes per week, and allowing time for unforeseen circumstances, it is estimated that harvesting operations will take approximately 52 weeks. It is expected that production will achieve this level of output.

In addition to the exclusion of the public other controls will include the use of warning and prohibition signs placed at strategic points around the worksite. Signs will also be placed on the forest roads approaching the worksite.

There is a section of cycle trail (Lonesome Pine) affecting the site, one running from west to east through the western side of the site before turning north. As the trails have no formal access rights they would normally be closed under any CRoW direction, however, in addition these trails will be closed for the period of

time where operations will result in a significant danger to trail users. The purchaser of the site will be required to put in place, reasonable controls so as to maintain closure of the cycle trails by the public while operations are carried out in the immediate vicinity of them.

To maintain areas of significant operational flexibility and clear windblow it is not feasible to split the coupe into any smaller areas. We will need to have the ability to react to changes in the timber markets and changes in weather conditions by moving production around the site.

### **3. SUBMITTING COMMENTS ON THE REVIEW:**

If you wish to comment on the review of this direction then you must do so before 9<sup>th</sup> December 2022 directly to the Forestry Commission at Buller's Hill, Kennford, Nr Exeter, EX6 7XR; e-mail: [cca@forestrycommission.gov.uk](mailto:cca@forestrycommission.gov.uk).

A map accompanies this notice and can be seen on the Open Access website:

<https://www.gov.uk/search/policy-papers-and-consultations>

If, following consultation, we decide to give a long-term direction, we must formally review the decision, not more than 5 years after it is given. We may also revoke or vary the direction at any other time, if new evidence comes to light showing that the circumstances have changed.
